London, UK

My passion and respect for the long tradition of excellence in British film and television production inspired me to relocate to the **UK on a Talent Visa**. I have worked in the United Kingdom, United States and Eastern Europe, on projects that received **2 Academy Award wins, 6 nominations**, and **3 BAFTA nominations**.

With 20 years of experience in Costumes for film & TV, I am eager to learn new approaches and work with a team to help bring the filmmaker's vision to life on screen. My work ethos centres on dedication to the process, having a great attitude, collaborating with everyone, and putting in the necessary effort to create something exceptional.
